Ladies Will Go.

The seventy-two ladies who will arrive here next month will go to Haleiwa for a day or two to test the climate and surroundings. It is expected that their time in Honolulu will be so strenuous that a few days' rest will be essential to their health, and HALEIWA IS THE PLACE TO GET IT. Since the place is mosquito proof, the amount of actual comfort has been increased. Take it all in all, there is no place in the Territory as well suited to the demands of the tourist or the resident as this. Manager Bidgood looks to the enjoyment of his individual guests and provides such plans of recreation as they desire. Rooms and rates on application.

HENRY WINS SUIT AGAINST BROWN

Gets Judgment in Sum of \$1000 With Interest

High Sheriff Henry today won suit against A. M. Brown on a promissory note for \$1000 with interest at 10 per cent since 1900.

A jury was completed soon after the case was resumed this afternoon, and the taking of testimony commenced at once. By 2:30 the case was ended, Judge De Bolt instructing the jury to bring in a verdict for the plaintiff, High Sheriff Henry, for \$1000, the face of the note, with interest at 10 per cent per annum from October 31, 1900.

The defense offered no testimony. Geo. A. Davis moved that a non-suit be entered on the ground that the plaintiff had not proved his case. Davis claimed that it had not been shown that either of the defendants live in Honolulu, and that however well the fact may be known, it has to be proved. The judge suggested that it had not been shown that Brown could read, and Davis said that as his honor had suggested it, he would take that ground, too. Judge De Bolt overruled the motion for a non-suit, the attorneys for the defense noting exceptions.

The trial was begun this morning in Judge De Bolt's court of the suit brought by High Sheriff Henry against A. M. Brown. Henry is suing for \$1000 with interest for several years on a promissory note given by Brown at the time the latter was High Sheriff. The note was given, High Sheriff Henry states, on a loan, and has never been paid. As it would outlaw within a short time, Henry brings suit to protect himself.

Difficulty was experienced this morning in getting a jury. The entire number of jurors in Judge De Bolt's court was exhausted without a jury being named, and it was necessary to issue a special venire for more jurors, who were summoned to be in court at 1:30 this afternoon, when the case was to be resumed.

A three-masted schooner, supposed to be the H. C. Wright, was sighted this morning, 10 miles off Diamond Head. The Wright is bound from San Francisco to Mahukoua and on the waterfront there has been considerable discussion as to her appearance here, so far off her course.

The British S. S. Glenfarg, now bound from Sialao to Liqueur, is expected to call at this port for coal.

TAXES FOR 1907 WILL SHOW INCREASE

The Assessment Roll will start his duties to week Monday collecting the taxes for this year. He states that he expects the amount collected to be not less than a quarter of a million dollars in excess of what came in last year. This will not be a net increase, however, as it will be necessary to allow for depreciation in value of property in Honolulu, the withdrawal of several business houses, etc. The net increase in collections over 1906 the Tax Assessor figures will be in the neighborhood of \$75,000 to \$80,000. The income tax will go far toward increasing the amount of collections, there being 12 months to collect for this year instead of only six as last year.

The Board of Equalization will take up the matter of assessments next month. The total collections for 1906 in this district amounted to \$229,127.77. *****
"Commoner" comes out very strong in his opposition to the doctrine of centralization as preached by Mr. Root.

Mr. Bryan says: "It seems to me that his argument upon the old idea of destiny—the refuge of the man who wants to do a thing which he cannot defend. The destiny argument carried us into our expensive experiment in imperialism, and now destiny is relied upon to obliterate the States and centralize all government at Washington. The Constitution, while made more than a century ago, is adequate for today. The changes that are needed are changes of method, not of principle. The division of the powers of government was founded upon the doctrine of self-government, and the preservation of the nation depends upon the careful observance of the limitations between the things that are local and the things that are national. Those who do not recognize the doctrine of local self-government can make an argument in favor of the transfer of all power to the Federal government, but those who believe in the doctrine of self-government realize that the people can be trusted best with that with which they are best acquainted with the things that are near them and immediately concern them."

There are distinct indications, Senator Rayner thinks, that President Roosevelt is showing over the District of Columbia into Maryland.

Ironing Shirts

Serial Story No. 1

The way in which we iron your shirt bosoms is not as destructive as you may imagine. We simply place the bosom on a soft padded board and press it against a steam-heated ironing plate, holding it there until dry and stiff. This method of ironing, we think you will admit, is even easier on the goods than hand work would be, for there is no rubbing or friction used whatever.

HARTMAN STEAM LAUNDRY is the only laundry in Honolulu with a machine to press shirt bosoms in the manner described above.
